

7. What is your recommendation for a base dollar amount for technical assistance (cost share salary & benefits) allocation per county?	
Continue to fund as is now.	
	25,000
	26,000
	25,000
\$15,000.00 (50%) starting	
	40,000
	22,000
	22,000
Should be based on performance and work load	
	25,000
Job approval authority obtained should have nothing to do with funds allocated.	
	25,000
	none
	30,000
It should be what they get now, and if it is lower than 50% of their total, they can try work towards getting the full 50% through some of the criteria listed below.	
	40,000

50% Salary & Benefits	
	25,000
	25,500
	25,000
in most counties the NCACS technical position is not a true 50/50 split with the state. I understand some counties pay their technical position more funds than the state is willing to share at least 50% with. I would rather see the state slightly raise the current cap on their portion the state is willing to cost share on.	
50% of the average cost of a FTE (benefits included) based on actual costs to Districts/Counties	
Should be based on the total amount of projects and work that is being undertaken by the District.	
	Up to 30,000

	20,000 minimum
	35,000
	23,000
	46,000
	\$20,000 minimum
Cut the base to a half or part time position, or shared position if workload does not justify the full match	
At least 50% of the cap of \$25,500	
	28,000

Technical Assistance depends on County job series and salary range for position. Our priority is for each District to have 1 position per county.
A minimum of 50% of salary & benefits for any cost share technician
35,000
35,000
23,560
20,000
50,000
Pay current rate.
Equality among ALL counties. You can not fairly assess a technician position across the board due to a number of different factors including but not limited to: Full job description and role within District office.
Each county technician should receive an equal amount.
